B&K

PRECISION LEVELERS

B&K fully adjustable, backed-up roller levelers are designed for precision coil strip flatness and shape correction. The solution to problems posed by coil set, cross bow, wavy edge and center buckled material.

- Top and bottom back-up rolls facilitate greater leveling control
- Fully adjustable back-up rolls control deflection of work rolls to determine how and where material is worked
- Rugged, herringbone gear box with self-contained gear driven lubrication system
- Pictorial, touchscreen control provides ease of set-up and operation
- Material widths from 18" to 96"

Available in standard 4-high and optional 5- or 6-high roll arrangements, B&K Levelers ensure dead-flat panel or strip for increased productivity and part quality.

2-Year Warranty
